9.1.4 Department of Water and Environmental Regulation – National Water Grid Connections “AA” Dams – Bodallin Dam

File Reference	1.6.26.3
Disclosure of Interest	None
Voting Requirements	Simple Majority

Purpose of Report

To submit to Council for its consideration the proposal submitted by the Department of Water and Environmental Regulation (DWER) for the Shire of Yilgarn to take on the Management Order of the Bodallin “AA” Dam once Catchment Refurbishment Works are completed under the National Water Grid Connections Fund.

Background

In the Information Booklet presented at the August 2021 Ordinary Council, correspondence was received from the Minister for Water, the Hon. Dave Kelly, advising that the State Government had successfully secured funding for the \$7.3 million project to upgrade and refurbish 70 agricultural area strategic community water supplies from the Midwest through to the Wheatbelt and Great Southern.

Prior to receiving the above advice, at the February 2021 Discussion Session Council was informed of DWER’s proposal to refurbish old AA Dams as per below Agenda item.

4.6 Department of Water and Environmental Regulation (DWER)-AA Dams

The CEO received correspondence from DWER on 1 February advising that it was preparing a funding submission through the National Water Grid Authority on behalf of the State Government to seek financial support from the Authority to refurbish a number of AA Dams, some which fall within the Shire of Yilgarn.

To assist DWER with its funding submission, it sought a letter of support from the Shire of Yilgarn. The refurbishment of AA Dams within the Shire would be welcomed to build on water security for off-farm emergency, farm and firefighting non-potable water supplies and therefore, the CEO had no hesitation in providing the letter of support on behalf of Council

The Minister for Water has been advocating the refurbishment of “AA Dams” for a number of years and its success was subject to the Federal Government providing matching funds to the State Government’s commitment.

With the Federal Government now coming to the party, DWER is now able to proceed with this project. It appears from the information provided by DWER in relation to the Bodallin Dam, the proposed works mainly relate to the improvement of the catchment area.

Comment

On Tuesday, 24 August 2021, DWER's Community Water Supply Project Team formally advised that funding had been secured under the National Water Grid Connections fund (NWGCf) - Agricultural Area (AA) and Strategic Community Dam Program, which was aimed at providing water security and to build resilience in farming communities to improve their drought preparedness.

As part of the above funding, DWER advised that the *Bodallin Dam* has been earmarked for the following works:-

Year 01 of Funding: '*Bodallin Dam*' – catchment works to make sure it is working at its best. Water Corporation vesting currently, DPLH have authority.

Following on from the above advice, on Monday, 30 August 2021, DWER sought confirmation from the Shire of Yilgarn that if DWER undertook the works required to get the Bodallin Dam up and running again, would the Shire be prepared to take on the Management of the Vesting post works. DWER indicated that currently Water Corporation has control of this site but has indicated that it wishes hand over non-potable sites to those local government authorities who require them.

Staff were reluctant to approve of the Shire of Yilgarn taking on the Management Order and therefore have referred this matter to Council for its consideration.

The CEO did contact DWER to ascertain if the Shire of Yilgarn did take responsibility for the Management Order, what would be the likely requirements for ongoing maintenance etc. DWER advised that maintenance in the future would be minimal, partly as it is a rock catchment, therefore little silting of the dam would take place. DWER also advised that as part of the funding, they would provide a tank/s for storage and an easy swipe card system in order the Shire can control and manage water usage.

Statutory Environment

Management Order responsibilities for the Bodallin Dam.

Land Administration Act 1997

management order means order by which the care, control and management of a reserve are placed under section 46(1) or 59(4);

Part 4 — Reserves

41. Reserving Crown land, Minister's powers as to

Subject to section 45(6), the Minister may by order reserve Crown land to the Crown for one or more purposes in the public interest.

46. Care, control and management of reserves

- (1) The Minister may by order place with any one person or jointly with any 2 or more persons the care, control and management of a reserve for the same purpose as that for which the relevant Crown land is reserved under section 41 and for purposes ancillary or beneficial to that purpose and may in that order subject that care, control and management to such conditions as the Minister specifies.

Strategic Implications

Shire of Yilgarn Strategic Community Plan 2020-2030 – Social Objectives – Outcome 1.4 Maintain a liveable, safe and secure community – 1.4.1 Advocate and actively support emergency management and services in the district.

Policy Implications

Nil

Financial Implications

There are no immediate financial implications to the Shire of Yilgarn as the National Water Grid Connections fund (NWGCf) - Agricultural Area (AA) and Strategic Community Dam Program will fund all refurbishment works.

Following the above works, there will be ongoing maintenance works to maintain catchment areas etc.

Purpose of Report

This report seeks Council’s approval for an amendment to its 2021/2022 budget to allow for expenditure from its municipal fund for the completion of the netball court resurfacing project and repairs/replacement of the perimeter fencing of Councils leased cropping land.

Background

As part of the Federal Governments COVID-19 stimulus campaign, Council has received funding under the Local Roads and Community Infrastructure (LRCI) Grant. To date Council has received \$1.165m of the approved \$1.603m round 1 & 2 grants.

The second request for a budget amendment relates to correspondence received, post budget adoption, from the Department of Planning, Lands and Heritage requesting that Council undertake remedial works to the fencing for the leased cropping land situated along Great Eastern Highway.

Comment

During the process for setting the 2021/22 budget, an amount of \$27,500 required for the completion of the LRCI Round 2 project for the resurfacing of the Southern Cross netball courts was omitted. To satisfy the grant conditions, this amount will need to be expended on the approved project or refunded. It is intended to install spectator seating and shelters.

As previously indicated, the Department of Planning, Lands and Heritage has requested Council undertake remedial works to the perimeter fencing for the cropping land leased by Council located Lot 36 on Deposited Plan 89823 and Lot 44 on Deposited Plan 89830 which is locally known as the community cropping paddock.

The estimated cost of these works is \$20,000 and will be wholly based on contractor labour.

The effect of these amendments will be:
