

2026 - 2027 **BUDGET**

Adopted:
Special Council Meeting
27th July 2026

Budget Message from the Shire President

On behalf of the Shire of Yilgarn I am pleased to present the budget for the year ended 30 June 2027.

The 2026 financial year saw the delivery of several major projects to invest in the future of the district, including the completion of a new executive-level residence for the Chief Executive Officer, major investment in Council's fleet to develop our road construction capacity, and the significant investment in the expansion and renewal of our road network.

The Shire has seen some change in key positions throughout the year; Councillor Dane Stephen was sworn in on 26 March 2026, adding a youthful perspective to Council's deliberations. Further, after the departure of Nic Warren in January 2026 we welcomed Ben Forbes as our new Chief Executive Officer, in June 2026.

These changes have brought alternative perspectives to the strategic direction of the Shire, with various concepts, initiatives and plans being investigated. Significant resources have been allocated in the 2027 budget to develop strategic plans or to invest in future capacity building, which will increase the efficiency of operations and allow us to offer new and improved services to the community. I encourage all ratepayers to actively participate in upcoming community consultation wherever possible to ensure that your voice is heard and that your input is considered. We always want to know how we can service the community better and we welcome your feedback at any time.

In addition to investing in future administrative capacity, the 2027 budget further develops the capacity of Council's works department, with planned plant acquisitions estimated to deliver as much as a 10-15% increase in gravel re-sheeting productivity. This increase in capacity is necessary to expand Council's annual renewal of gravel roads to maintain the quality of our road network in the face of increased use.

Other notable projects planned for 2027 include:

Project description	Estimated cost
Construction of new executive staff house	\$770,000
New indoor netball/basketball court flooring at the recreation centre	\$150,000
Southern Cross footpath additions and improvements (estimated one linear km)	\$300,000
Southern Cross bowling club, replace shade structure over playground	\$70,000
Caravan Park, disabled access chalets and new single-room lodgings	\$650,000+
Southern Cross townsite entry statements (completion of lighting and delivery)	\$80,000
Lake Koorkoordinate raised walkway (Stage 1)	\$150,000

The production of Council's budget is a team effort from Shire staff that takes months of coordinated meetings and deliberations. On behalf of Council, I would like to extend my deepest thanks to all staff involved for their hard work, and congratulate them on a job well done.

Residents and ratepayers should feel and take real ownership over this document; if you have any questions about Council's budget, please don't hesitate to discuss them with Councillors or Shire management.

Lastly, I would like to thank all of my fellow Councillors for their tireless dedication to the Shire and the community.

Your Property Rates

Rates are set on the basis of two factors:

- The rate in the dollar set by Council; and
- Property Valuations provided by the Valuer General.

Council's 2026/2027 Budget aimed for an overall 2.5% increase **in rates revenue** based on the value of rates raised in the 2025/2026 financial year.

As 2026/27 is not a general revaluation year for Gross Rental Value (GRV) Rated assessments, primarily town assessments, the average increase in the Rate in the Dollar (RID) was between 2.045% and 3.920%.

For Unimproved Valuation (UV) assessments, primarily rural holdings and mining tenements, there was again a significant increase in the underlying valuations provided by Landgate.

The total **UV-Rural** valuations increased from \$194,010,313 to \$219,870,703 which is a \$25,860,390 (13.33%) increase. With this in mind, to achieve the planned 2.5% increase in rates raised a **reduction** in the RID of 9.5% was required.

It was a similar scenario with the UV-Mining rate category, although not as pronounced. With UV-Mining, the valuations increased from \$13,139,763 to \$13,334,940 which is a \$195,177 (1.49%) increase. This resulted in a small **reduction** in this rate categories RID of 0.7%.

Minimum Rates

The Minimum Rates have been retained at; \$600 for GRV - Residential and all other categories being set at a minimum of \$450.

Why rates will fluctuate?

Rates will fluctuate from year to year as valuations and revaluations are received. Having a 2.5% change in the rate in the dollar overall does not necessarily equate to a 2.5% change in the rates paid by any individual property owner, as changes in valuations can have the effect of that property's rates either increasing or decreasing in line with the change in valuation.

Why use Differential Rates?

Council has utilised a differential rating system since 1995/1996 as a method of more equitably distributing the rate burden according to the level at which ratepayers consume Council resources.

Methods of valuation used for mining tenements and rural land are not compatible and result in major discrepancies between the two.

Differential Rates

Council has endorsed the following objects & reasons for setting differential rates in regards to the different rating categories:

Category 1 – Residential/Industrial GRV

The object of the proposed rate in the \$ of \$0.091117 is to ensure a reasonable contribution towards the services and facilities provided by the Shire.

Category 2 – Commercial GRV

The object of the proposed rate in the dollar of \$0.083132 is to ensure a reasonable contribution towards the services and facilities provided by the Shire and to keep rates to a minimum level to encourage local business to remain competitive and viable.

Category 3 – Minesites GRV

The object of the proposed rate in the dollar of \$0.163880 is to reflect the cost of servicing mining activity including road infrastructure and other amenities.

Category 4 – Single Persons Quarters (SPQ) GRV

The object of the proposed rate of \$0.163880 is intended to maintain the relativity comparative to residential rates and provides an average rate per accommodation unit of substantially less than Council's proposed minimum rate.

Category 5 - Rural UV

The object of the proposed rate in the dollar of \$0.010468 is to ensure a reasonable contribution towards the services and facilities provided by the Shire.

Category 6 – Mining UV

The object of the proposed rate in the \$ of \$0.151180 is to generate revenue to support the investment in road and road drainage infrastructure to service remote mining activities.

SHIRE OF YILGARN
NOTES TO AND FORMING PART OF THE BUDGET
FOR THE YEAR ENDED 30 JUNE 2027

1 BASIS OF PREPARATION

The annual budget of the Shire of Yilgarn which is a Class 3 local government is a forward looking document and has been prepared in accordance with the *Local Government Act 1995* and accompanying regulations.

Local Government Act 1995 requirements

Section 6.4(2) of the *Local Government Act 1995* read with the *Local Government (Financial Management) Regulations 1996* prescribe that the annual budget be prepared in accordance with the *Local Government Act 1995* and, to the extent that they are not inconsistent with the Act, the Australian Accounting Standards. The Australian Accounting Standards (as they apply to local governments and not-for-profit entities) and Interpretations of the Australian Accounting Standards Board were applied where no inconsistencies exist.

The *Local Government (Financial Management) Regulations 1996* specify that vested land is a right-of-use asset to be measured at cost, and is considered a zero cost concessionary lease. All right-of-use assets under zero cost concessionary leases are measured at zero cost rather than at fair value, except for vested improvements on concessionary land leases such as roads, buildings or other infrastructure which continue to be reported at fair value, as opposed to the vested land which is measured at zero cost. The measurement of vested improvements at fair value is a departure from *AASB 16 Leases* which would have required the Shire of Yilgarn to measure any vested improvements at zero cost.

Accounting policies which have been adopted in the preparation of this annual budget have been consistently applied unless stated otherwise. Except for cash flow and rate setting information, the annual budget has been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

The local government reporting entity

All funds through which the Shire of Yilgarn controls resources to carry on its functions have been included in the financial statements forming part of this annual budget.

All monies held in the Trust Fund are excluded from the financial statements. A separate statement of those monies appears at Note 11 to the annual budget.

2025/26 actual balances

Balances shown in this budget as 2025/26 Actual are estimates as forecast at the time of preparation of the annual budget and are subject to final adjustments.

Budget comparative figures

Unless otherwise stated, the budget comparative figures shown in the budget relate to the original budget estimate for the relevant item of disclosure.

Comparative figures

Where required, comparative figures have been adjusted to conform with changes in presentation for the current financial year.

Rounding off figures

All figures shown in this statement are rounded to the nearest dollar.

Statement of Cashflows

Investing and financing transactions that do not require the use of cash or cash equivalents shall be excluded from a statement of cash flows. Such transactions shall be disclosed elsewhere in the financial statements in a way that provides all the relevant information about these investing and financing activities.

Initial application of accounting standards

During the budget year, the below revised Australian Accounting Standards and Interpretations are expected to be compiled, become mandatory and be applicable to its operations.

- *AASB 2026-1 Amendments to Australian Accounting Standards – Disclosures about Uncertainties in the Financial Statements*
- *AASB 2024-2 Amendments to Australian Accounting Standards – Classification and Measurement of Financial Instruments*
- *AASB 2024-3 Amendments to Australian Accounting Standards – Standards – Annual Improvements Volume 11*
- *AASB 2025-1 Amendments to Australian Accounting Standards – Contracts Referencing Nature-dependent Electricity*

It is not expected these standards will have an impact on the annual budget on initial application.

New accounting standards for application in future years

The following new accounting standards will have application to local government in future years:

- *AASB 2014-10 Amendments to Australian Accounting Standards – Sale or Contribution of Assets between an Investor and its Associate or Joint Venture*
- *AASB 2024-4b Amendments to Australian Accounting Standards – Effective Date of Amendments to AASB 10 and AASB 128 [deferred AASB 10 and AASB 128 amendments in AASB 2014-10 apply]*

It is not expected these standards will have an impact on the annual budget on initial application.

- *AASB 18 Presentation and Disclosure in Financial Statements*
- *AASB 18 (NFP/super) Presentation and Disclosure in Financial Statements – (Appendix D) [for not-for-profit and superannuation entities]*

These accounting standards will materially change the presentation of the annual financial report and annual budget

Critical accounting estimates and judgements

The preparation of the annual budget in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses.

The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances; the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The annual budget is a forward-looking statement and is comprised of management estimates. As with all estimates, the use of different assumptions could lead to material changes in the amounts reported in the annual budget.

The following are estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year and further information on their nature and impact can be found in the relevant note:

- Fair value measurement of assets carried at reportable value including:
- Property, plant and equipment
- Infrastructure
- Expected credit losses on financial assets
- Impairment losses of non-financial assets
- Measurement of employee benefits

The Shire of Yilgarn did not raise specified area rates for the year ended 30th June 2027.

*Rateable Value at time of adopting budget.

All rateable properties within the district used predominately for non-rural purposes are rated according to their Gross Rental Valuation (GRV), all other properties are rated according to their Unimproved Valuation (UV).

The general rates detailed for the 2026/27 financial year have been determined by Council on the basis of raising the revenue required to meet the estimated deficiency between the total estimated expenditure proposed in the budget and the estimated revenue to be received from all sources other than general rates and also considering the extent of any increase in rating over the level adopted in the previous year.

The minimum payments have been determined by Council on the basis that all ratepayers must make a reasonable contribution to the cost of local government services/facilities.

(c) Objectives and Reasons for Differential Rating

To provide equity in the rating of properties across the Shire of Yilgarn the following rate categories have been determined for the implementation of differential rating.

Differential general rate

Description	Characteristics	Objects	Reasons
GRV Residential / Industrial	Properties within a town site boundary with a land use that does not fall within the category of	This rate to contribute to the services desired by the community	This is considered to be the base rate above which all other
GRV Commercial	Properties used for commercial purposes and non-residential properties.	This category is rated lower than Residential / Industrial to encourage competitiveness and viability.	To keep rates to a minimum to encourage local businesses to remain competitive and viable.
GRV Mine Sites	Applies to properties with a mining land use.	This rate reflects the cost of servicing mining activity including road infrastructure and other amenities and services.	This rate category reflects the greater impact on roads by way of heavy haulage as well as ancillary use of Shire services and facilities.
GRV Single Persons Quarters	Applies to properties with a transient workforce accommodation land use.	To maintain relativity comparative to residential properties from a unit of accommodation perspective.	Council preferred option is that workers be housed in normal residential accommodation located within the town boundary.
UV Rural	Consists of properties used predominantly for rural purposes.	This rate to contribute to the services desired by the community.	This is considered to be the base rate above which all other UV rated properties are
UV Mining	Properties with land use associated with mining activities.	This rate reflects the cost of servicing mining activity including road infrastructure and other amenities and services.	This rate category reflects the greater impact on roads by way of heavy haulage as well as ancillary use of Shire services and facilities.

3. NET CURRENT ASSETS (CONTINUED)

(d) MATERIAL ACCOUNTING POLICIES

CURRENT AND NON-CURRENT CLASSIFICATION

The asset or liability is classified as current if it is expected to be settled within the next 12 months, being the Shire of Yilgarn's operational cycle. In the case of liabilities where the Shire of Yilgarn does not have the right to defer settlement beyond 12 months, such as vested long service leave, the liability is classified as current even if not expected to be settled within the next 12 months. Inventories held for trading are classified as current or non-current based on the Shire of Yilgarn's intentions to release for sale.

TRADE AND OTHER PAYABLES

Trade and other payables represent liabilities for goods and services provided to the Shire of Yilgarn prior to the end of the financial year that are unpaid and arise when the Shire of Yilgarn becomes obliged to make future payments in respect of the purchase of these goods and services. The amounts are unsecured, are recognised as a current liability and are normally paid within 30 days of recognition. The carrying amounts of trade and other payables are considered to be the same as their fair values, due to their short-term nature.

PREPAID RATES

Prepaid rates are, until the taxable event has occurred (start of the next financial year), refundable at the request of the ratepayer. Rates received in advance are initially recognised as a financial liability. When the taxable event occurs, the financial liability is extinguished and the Shire of Yilgarn recognises revenue for the prepaid rates that have not been refunded.

INVENTORIES

General

Inventories are measured at the lower of cost and net realisable value.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

INVENTORY - LAND HELD FOR RESALE

Land held for development and sale is valued at the lower of cost and net realisable value. Cost includes the cost of acquisition, development, borrowing costs and holding costs until completion of development. Finance costs and holding charges incurred after development is completed are expensed.

Gains and losses are recognised in profit or loss at the time of signing an unconditional contract of sale if significant risks and rewards, and effective control over the land, are passed on to the buyer at this point.

Inventory - land held for resale is classified as current except where it is held as non-current based on the Shire of Yilgarn's intentions to release for sale.

SUPERANNUATION

The Shire of Yilgarn contributes to a number of superannuation funds on behalf of employees. All funds to which the Shire of Yilgarn contributes are defined contribution plans.

GOODS AND SERVICES TAX (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO).

Receivables and payables are stated inclusive of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with receivables or payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the ATO are presented as operating cash flows.

CONTRACT LIABILITIES

Contract liabilities represent the Shire of Yilgarn's obligation to transfer goods or services to a customer for which the Shire of Yilgarn has received consideration from the customer.

Contract liabilities represent obligations which are not yet satisfied. Contract liabilities are recognised as revenue when the performance obligations in the contract are satisfied.

TRADE AND OTHER RECEIVABLES

Trade and other receivables include amounts due from ratepayers for unpaid rates and service charges and other amounts due from third parties for grants, contributions, reimbursements, and goods sold and services performed in the ordinary course of business.

Trade and other receivables are recognised initially at the amount of consideration that is unconditional, unless they contain significant financing components, when they are recognised at fair value.

Trade receivables are held with the objective to collect the contractual cashflows and therefore the Shire of Yilgarn measures them subsequently at amortised cost using the effective interest rate method.

Due to the short term nature of current receivables, their carrying amount is considered to be the same as their fair value. Non-current receivables are indexed to inflation, any difference between the face value and fair value is considered immaterial.

The Shire of Yilgarn applies the AASB 9 simplified approach to measuring expected credit losses using a lifetime expected loss allowance for all trade receivables. To measure the expected credit losses, rates receivable are separated from other trade receivables due to the difference in payment terms and security for rates receivable.

PROVISIONS

Provisions are recognised when the Shire of Yilgarn has a present legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

Provisions are measured using the best estimate of the amounts required to settle the obligation at the end of the reporting period.

EMPLOYEE BENEFITS

Short-term employee benefits

Provision is made for the Shire of Yilgarn's obligations for short-term employee benefits. Short term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The Shire of Yilgarn's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as a part of current trade and other payables in the determination of the net current asset position.

The Shire of Yilgarn's obligations for employees' annual leave and long service leave entitlements are recognised as provisions in the determination of the net current asset position.

Other long-term employee benefits

Long-term employee benefits provisions are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wage and salary levels, durations of service and employee departures and are discounted at rates determined by reference to market yields at the end of the reporting period on government bonds that have maturity dates that approximate the terms of the obligations. Any remeasurements for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the changes occur.

The Shire of Yilgarn's obligations for long-term employee benefits are presented as non-current provisions in its statement of financial position, except where the Shire of Yilgarn does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current provisions.

CONTRACT ASSETS

Contract assets primarily relate to the Shire of Yilgarn's right to consideration for work completed but not billed at the end of the period.

MATERIAL ACCOUNTING POLICES

CASH AND CASH EQUIVALENTS

Cash and cash equivalents include cash on hand, cash at bank, deposits available on demand with banks, other short term highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Term deposits are presented as cash equivalents if they have a maturity of three months or less from the date of acquisition and are repayable with 24 hours notice with no loss of interest.

Bank overdrafts are shown as short term borrowings in current liabilities in Note 3 - Net Current Assets.

FINANCIAL ASSETS AT AMORTISED COST

The Shire of Yilgarn classifies financial assets at amortised cost if both of the following criteria are met:

- the asset is held within a business model whose objective is to collect the contractual cashflows, and
- the contractual terms give rise to cash flows that are solely payments of principal and interest.

Interest received is presented under cashflows from operating activities in the Statement of Cash Flows where it is earned from financial assets that are held for cash management purposes.

RECOGNITION OF ASSETS

Assets for which the fair value as at the date of acquisition is under \$5,000 are not recognised as an asset in accordance with *Financial Management Regulation 17A (5)*. These assets are expensed immediately.

Where multiple individual low value assets are purchased together as part of a larger asset or collectively forming a larger asset exceeding the threshold, the individual assets are recognised as one asset and capitalised.

GAINS AND LOSSES ON DISPOSAL

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains and losses are included in profit or loss in the period which they arise.

DEPRECIATION

The depreciable amount of all fixed assets including buildings but excluding freehold land, are depreciated on a straight-line basis over the individual asset's useful life from the time the asset is held ready for use. Leasehold improvements are depreciated over the shorter of either the unexpired period of the lease or the estimated useful life of the improvements.

The assets residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Major depreciation periods used for each class of depreciable asset are:

Buildings - non-specialised	30 - 75 Years
Buildings - specialised	30 - 75 Years
Furniture and equipment	4 - 20 Years
Plant and equipment	5 - 30 Years
Infrastructure - roads	15 - 120 Years
Infrastructure - footpaths	10 - 80 Years
Infrastructure - parks & ovals	10 - 40 Years
Infrastructure - sewerage	60 - 100 Years
Infrastructure - townscape	20 - 35 Years
Infrastructure - other	10 - 80 Years
Infrastructure - refuse	Not Depreciated
Infrastructure - airport	10 - 30 Years
Infrastructure - drainage	5 - 80 Years
Infrastructure - parks and ovals	10 to 60 Years
Infrastructure - refuse	40 Years
Right of use - plant and equipment	Based on the remaining lease

AMORTISATION

The depreciable amount of all intangible assets with a finite useful life, are depreciated on a straight-line basis over the individual asset's useful life from the time the asset is held for use.

The assets residual value of intangible assets is considered to be zero and useful live and amortisation method are reviewed at the end of each financial year.

Amortisation is included within Depreciation on non-current assets in the Statement of Comprehensive Income.

MATERIAL ACCOUNTING POLICIES

BORROWING COSTS

The Shire of Yilgarn has elected to recognise borrowing costs as an expense when incurred regardless of how the borrowings are applied.

Fair values of borrowings are not materially different to their carrying amounts, since the interest payable on those borrowings is either close to current market rates or the borrowings are of a short term nature.

Borrowings fair values are based on discounted cash flows using a current borrowing rate.

12. REVENUE AND EXPENDITURE

(a) Revenue and Expenditure Classification

REVENUES

RATES

All rates levied under the *Local Government Act 1995*. Includes general, differential, specific area rates, minimum payment, interim rates, back rates, ex-gratia rates, less discounts offered.

Exclude administration fees, interest on instalments, interest on arrears, service charges and sewerage rates.

GRANTS, SUBSIDIES AND CONTRIBUTIONS

All amounts received as grants, subsidies and contributions that are not capital grants.

CAPITAL GRANTS, SUBSIDIES AND CONTRIBUTIONS

Amounts received specifically for the acquisition, construction of new or the upgrading of non-current assets paid to a local government, irrespective of whether these amounts are received as capital grants, subsidies, contributions or donations.

REVENUE FROM CONTRACTS WITH CUSTOMERS

Revenue from contracts with customers is recognised when the local government satisfies its performance obligations under the contract.

FEES AND CHARGES

Revenues (other than service charges) from the use of facilities and charges made for local government services, sewerage rates, rentals, hire charges, fee for service, photocopying charges, licences, sale of goods or information, fines, penalties and administration fees.

Local governments may wish to disclose more detail such as rubbish collection fees, rental of property, fines and penalties, other fees and charges.

SERVICE CHARGES

Service charges imposed under *Division 6 of Part 6 of the Local Government Act 1995*. Regulation 54 of the *Local Government (Financial Management) Regulations 1996* identifies the charges which can be raised. These are television and radio broadcasting, underground electricity and neighbourhood surveillance services and water.

Exclude rubbish removal charges which should not be classified as a service charge. Interest and other items of a similar nature received from bank and investment accounts, interest on rate instalments, interest on rate arrears and interest on debtors.

INTEREST REVENUE

Interest and other items of a similar nature received from bank and investment accounts, interest on rate instalments, interest on rate arrears and interest on debtors.

OTHER REVENUE

Other revenue, which cannot be classified under the above headings, includes dividends, discounts, rebates etc.

PROFIT ON ASSET DISPOSAL

Gain on the disposal of assets including gains on the disposal of long-term investments.

HIRE OF PUBLIC BUILDINGS & GROUNDS

The Shire of Yilgarn discourages applications for waivers of fees and charges, especially for proponents that have operating budgets. Local community non-profit proponents have access to the Shire's annual Community Funding Program.

In extenuating circumstances, proponents may submit a proposal to the Shire for funding, however submissions will need to be accompanied by a business case/community benefit assessment for the funding and provide relevant financial documentation detailing the proponents financial position and justification for seeking assistance. Any funding provided by the Shire will be via a written agreement, including any terms and conditions considered necessary by Council.
